Corps of Engineers at Canyon Lake accepting applications for bow hunting

Beginning April 15, 2001, the Corps of Engineers at Canyon Lake will begin accepting applications for the 2001-2002 bow hunting program for white-tailed deer. Annual deer surveys indicate that the deer population exceeds the land's carrying capacity. Permitted hunting will help protect the resource while providing public hunting opportunities.

The bow hunting program at Canyon Lake has been successfully managed for the past four hunting seasons. During that time, over one hundred deer have been harvested. The program is closely coordinated with biologists from the Texas Parks and Wildlife Department.

To receive an application packet, please contact the U.S. Army Corps of Engineers, Canyon Lake Office at (830) 964-3341. Specific questions or concerns regarding hunts at Canyon Lake should be directed to Park Ranger Brad Campbell at (830) 964-3342, Ext. 18. Applicants selected to hunt last season will automatically be mailed an application packet.
